2. Draw procedure

Generally (women/men):

The topic 4.3.1. in the rulebook is changed as followed:

The host decides on the format of the competition, the formation of groups and the duration of the preliminary round. The groups are drawn in such a way that minorities from the same state can meet in the group stage. But only a maximum of 2 teams from the same state can meet in the group stage.

Men:

From Italy and Romania there are each more than two teams (5 from both states).

If a group is "closed" with 2 teams from one state (this can first time happen after the drawing of pot 1 and 2) and another team from this state is drawn to the group, it will automatically be moved to the next group. If this group also is occupied it will be moved to the next group again...

This means: When pot 3 is drawn and there only are two open groups left, it could be, that the last two teams has to be put directly in the corresponding groups.

This also means: After the drawing of pot 3, there will be made status of which groups maybe are closed for the teams from Romania and the team from Italy in pot 4. If some of the groups are closed, there will be a open drawing just for the team from Italy and or maybe followed by an open drawing for the teams of Romania. Open draw means, that there just will be a draw of the groups, where the respective teams will be placed (first the Italian team and then the Romanian teams).

After that the remaining 3 teams will be drawn to the remaining 3 groups.

Women:

The draw starts with pot 1 and the group-pot with the groups A, B and C.

First there will be drawn a team from pot 1, then a group. Then the next team and then the next group...

This is followed by pot 2 and another group-pot (A, B and C).

The teams from pot 3 are seeded as mentioned above.

Men:

The draw starts with pot 1 (6 teams, seeding list 1-7 without number 5 Sydslesvig who is seeded rank 1 in group C) and a group-pot with the groups A, B, D-G.

A team is always drawn first and then a corresponding group.

Next is pot 2 (6 teams, seeding list number 8-14 without number 14 Nordfraschlönj who is seeded rank 2 group A) and group-pot B-G.

Then pot 3 (6 teams, seeding list 15-21 without number 20 Team Nordschleswig who is seeded rank 20) and group-pot A-D, F, G.

Status of possible "closed" groups for teams from Italy and Romania and corresponding continuation of the draw as described above.

Pot 4 (6 teams, seeding list number 22-26) and a group-pot with the groups A-F. Regular draw or as described above.

Finalisation of the tournament match schedule

Based on the results of the final tournament draw, which determine the group compositions and each team's group position, the EUROPEADA administration will allocate the kick-off times off all matches and publish the finalised schedule as soon as possible after the draw.

EUROPEADA tries to take into account and points out:

- That the host-teams do not play at the same time.
- That the women- and men-teams from the same minority are not playing at the same time.
- It is NOT possible, that the matches from the women and men-teams from the same minority will be hold at the same venue.
- Matches will be played in the morning and afternoon (women and men).
- The last group-matches (men) must **NOT** be played at the same time.
- That no matches clash with the matches played at the UEFA EURO.
